LEADERSHIP & RISK

Outdoor Leadership Diploma

NOLS, Wyoming, USA
Feb 2018 - 2019

Expedition-based training in team leadership, risk assessment, emergency response, wilderness medicine and avalanche safety.

NIKHIL DHANDA

CYBERSECURITY STUDENT

Final semester Bachelor of Computing Systems student specializing in Cybersecurity and Networking, completing 22 November 2026. Completed a year-long Spark New Zealand cybersecurity internship with practical exposure to security operations, incident investigations, vulnerability management, phishing analysis and technical reporting. Strong interest in privacy, risk assurance, and protecting sensitive data, also eager to contribute to real projects and expanding my knowledge towards more real-world applications. Available full-time from 23 November 2026 through February 2027.

WORK EXPERIENCE

Cybersecurity Intern

Aug 2024 – Jun 2025

Spark New Zealand, Auckland

- Completed a year-long work-integrated programme delivered through weekly workshops, guided exercises and simulated investigations led by Spark cybersecurity professionals.
- Gained hands on experience with Splunk and Microsoft Defender, including inspecting process trees, correlating endpoint and network events, investigating suspicious external traffic and internal account activities and distinguishing false positives.
- Analyzed sample phishing emails and indicators of compromise by reviewing headers, URLs, domains and IP reputation using OSINT and threat-intelligence sources.
- Shadowed cybersecurity analysts handling live tickets and producing investigation documentation.

EDUCATION

Bachelor of Computing Systems

July 2025 - Nov 2026

Unitec, Auckland

Relevant Coursework: Advanced Cyber Security, Malware Analysis, Computer Systems Security, Software Testing, Data Communications & Networks, Computer Forensic Investigations, Hardware Fundamentals

New Zealand Diploma in Cybersecurity (Level 6)

July 2024 – June 2025

Unitec, Auckland

Relevant Coursework: Data Analysis, Ethical Hacking & Testing, Cybersecurity Management, Network Security, Cryptography

New Zealand Diploma in Information Systems (Level 5)

Feb 2023 – June 2024

Unitec, Auckland

Relevant Coursework: Programming Principles, Database Design, Quality Assurance & Deployment, User Interface Design Principles, Requirements Engineering Principles
